

# Renz Aerol Ravela

A goal-oriented developer with a passion for the development of technology that helps the community ease their lives. Knowledgeable in user interface and backend development. A hard worker and quick learner, I have experience in project development and various collaborations and am always excited to learn more.

## WORK EXPERIENCE

### Web Developer

#### Freelance

September 2023 - July 2024

- Engineered dynamic, responsive websites using PHP Laravel, delivering robust and scalable web applications that align with modern web standards and client needs.
- Collaborated closely with clients to gather requirements, define project scopes, and provide consistent updates throughout the development life-cycle, ensuring seamless alignment with their expectations.
- Excelled in front-end development by leveraging HTML, CSS, and JavaScript to craft visually appealing, user-friendly interfaces that enhance user experience and engagement.
- Promoted and implemented web development best practices in collaboration with other developers, driving the delivery of high-quality, maintainable code.

### Intern Web Developer

#### Philippine Rice Research Institute

February 2024 - May 2024

- Maintained and enhanced multiple web-based management systems, ensuring optimal performance, reliability, and security across all platforms.
- Implemented automation processes to streamline workflows, reduce manual effort, and increase system efficiency.
- Conducted thorough quality checks and system testing to identify and resolve issues, ensuring seamless functionality and a high standard of user experience.

## EDUCATION

### Central Luzon State University

Bachelor of Science in Information Technology

Major in Systems Development - Cum Laude (GWA 1.55)

August 2020 - July 2024

## PREVIOUS PROJECTS

### Web Based School Guidance Reporting and Requesting System using Laravel –

Full-Stack Developer

May 2024 - July 2024

### Web Based Document Scanner with Cloud-based Repository – Backend

Developer

March 2024 - May 2024

### Web Based Movie Review and Rating System using Laravel – Backend Developer

October 2023 - December 2023

### FACT - Fish Automated Counting Tool (Arduino) – Backend Developer

September 2023 - January 2024
